

About Us

The Creation Study Group is a grassroots creation science organization. We want to assist you and others in learning the truth about Biblical creation. What God has to say about origins is foundational to the gospel and a Biblical world and life view. High school and college campuses are a fertile arena of ideas in America today. We want to take advantage of this great opportunity to reach the next generation with the Truth. These materials are absolutely FREE OF CHARGE. We will ship them to you at no cost.

The Creation Study Group is a Bible-believing organization committed to developing and distributing information that upholds the Bible.
